

David Korten's story of our journey to now using a 24 hour Cosmic clock

1. Midnight to 5:30 pm (17 1/2 hours)
- *big bang theory and first cell*
2. 5:30 - 7:15 pm (1hr 45 min)
single cell organisms continue to evolve - fermentation, photosynthesis and respiration
3. 7:15 - 11:59pm - (4hr 45min)
multi-celled organism, plants, fish, animals, birds, dinosaurs, etc...
4. **15 seconds**
ancestors of man - cave men
5. **.9 seconds**
agrarian then manufacturing ages
6. **1.44 thousandths of a second**
industrial age
Information age????
